

Corporate Fuel Securities LLC's Business Continuity Plan

Disclosure Statement

In accordance with FINRA Rule 4370, Corporate Fuel Securities, LLC has developed a business continuity plan as part of our ongoing contingency planning efforts to mitigate the impact of business interruptions. Since the timing and impact of disasters and disruptions is unpredictable, we must be flexible in responding to actual events. With that in mind, we are providing you summary information concerning our business continuity plan.

Corporate Fuel Securities, LLC plans to quickly recover and resume business operations after a business disruption by safeguarding our employees' lives and firm property, making a financial and operational assessment, protecting Corporate Fuel Securities, LLC's books and records and allowing our customers to transact business as permitted. Our business continuity plan is designed to permit Corporate Fuel Securities, LLC to resume operations as quickly as possible, given the scope of the business disruption.

Our business continuity plan addresses: data back-up and recovery; mission critical systems; financial and operational assessments; alternative communications with clients, regulators and employees; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; and regulatory reporting.

A business disruption can affect only our firm, a single building housing of our firm, the business district where our firm is located or a broader region. The severity of the disruption can vary from minimal to severe within each of these areas. In any situation, we plan to continue in business, and notify you through our website www.corporatefuel.com or our main number 212-260-2743 on how to contact us.

The business continuity plan is reviewed periodically, and subject to modification.
